Guiding AEMI Energy Mentorship questions.

1. What advice would you give to energy lawyers and other professionals who desire to expound their career opportunities globally?
2. Did you have a hard time starting out in the industry? How did you overcome these challenges?

3. What have been your success pillars in the energy sector?
Would you do anything differently if given the opportunity to do so?
4. What advice would you give the youth to help them balance different job aspects in their career?
5. Have you experienced major setbacks or blocks in your career path? How did you address these setbacks?
6. What skills would you advise the youth to acquire in order to grow their career paths?
7. What advise can you give the youth to help them in planning and growing a career?
8. What are some hard choices that you made to get where you are in your career?
9. Do you have some tips on how the youth should build meaningful networks?
